DETAILED ACTION

Amendment

1. Acknowledgment is made of Amendment filed February 3, 2006.

Allowable Subject Matter

2. Claims 1 and 3-13 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The best prior art of record fails to teach or fairly suggest a non-contact IC card configured for communicating data with a reader/writer in a contactless manner, the non-contact IC card having an encryptor having a public key encryption processor and a common key encryption processor; a frequency controller; hardware of the encryptor; wherein the encryptor having the public key encryption processor configured to perform a public key encryption operation, and a common key encryption processor configured to perform a common key encryption operation; wherein the frequency controller configured to change an operation frequency of the non-contact IC card so that communication with the reader/writer and the encryption operations performed by the encryptor are carried out at different operation frequencies, wherein hardware of the encryptor which is not required for the public key encryption operation is configured to not operate during the public key encryption operation; and wherein the hardware of the encryptor, which is not required for the common key encryption operation is configured to not operate during the common key encryption operation as set forth in the claims.

Furthermore, applicant's argument, see pages 5-6, with respect to claims 1 and 3-13 were also persuasive.
